G36710

36" (Diagonal) Stereo Console Television

Features	Benefits
Component Video Input (Y Pr Pb) on rear allows a single device with Y Pr Pb outputs (such as a DVD player or a satellite receiver) to be connected.	Improves video quality by separating the signal into 3 video connectors. Provides more vibrant, sharper images compared to single video inputs.
Two sets of rear L+R+V jacks (only 1 set when Component Video is used), plus stereo audio outputs.	Variable audio outputs allow unified volume control into optional home theatre audio systems, including from the remote control.
Digital 3-Line Comb Filter	Separates black-and-white detail from color information to virtually eliminate edge crawls and rainbow effects while enhancing picture resolution.
Guide Plus+[1] On-Screen Program Guide	Find out What's On! The Guide Plus+[1] feature is a free, built-in service that provides instant listings of all your TV shows at the touch of a button.
Advanced Twin-Tuner™ Picture-in-Picture	Watch two programs at the same time - both in color. Advanced features include Continuous Move and Skip-to-PIP.
Sound Logic™	Provides consistent volume levels throughout programming & channel changes. Eliminates annoying "blast" of sound during some commercial breaks.
Broadcast Stereo with dbx[3] Noise Reduction and Front-Fired Speaker System	Improves the clarity and fidelity of stereo broadcasts. Front-fired full-range frequency drivers provide excellent imaging while localizing voices at the screen.
